What is GoAffPro?

GoAffPro is a complete affiliate and influencer marketing solution for your store. With GoAffPro, you can build an affiliate program for your store. That will let you recruit affiliates who will refer sales to your store. In addition to this, it will also increase your brand's visibility and popularity.

Our app makes your job easy. It lets you quickly and easily set up an affiliate program for your store. The app is feature-rich, allowing for extensive customization and easy management of the affiliate program.

In this guide, we will walk you through quickly setting up your affiliate program.

Installation & Accessing GoAffPro

After you have [installed](#) GoAffPro on your store, you can proceed with setting up the affiliate program.

You can open up the app directly from your store's admin panel or from the goaffpro.com/merchant page (this will depend upon the store platform you use).

Setup Wizard

After you open the GoAffPro app for the first time, you will go through a setup wizard. The setup wizard will give you a quick introduction to affiliate marketing and how it works.

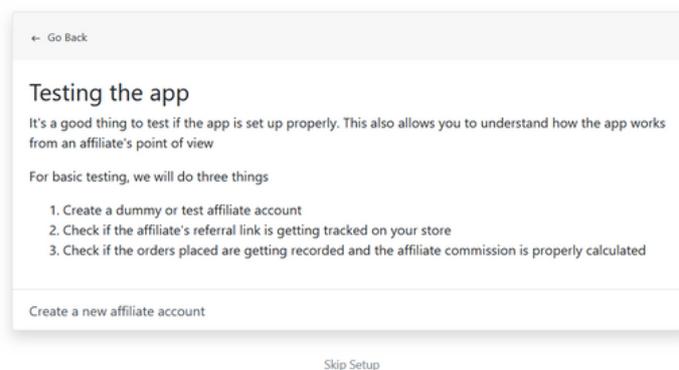

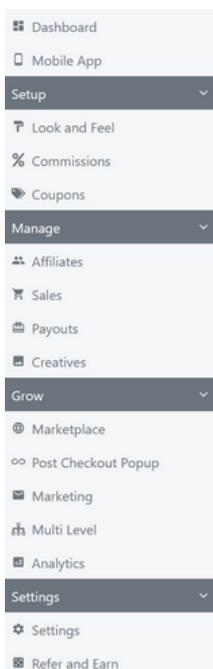

Next, it will take you through the basic setup of your affiliate program. Here, you will:

- Set the default commission of the program.
- Set the discount value of the affiliate coupon codes.
- Add the affiliate portal link to your store's header or footer menu.
- Customize the affiliate portal by uploading the store logo, setting the brand color, and setting the affiliate portal language.

Finally, the setup wizard will then help you test the app. In this test:

- You will create a test affiliate account.
- Click on the affiliate's referral link to check the visit getting tracked.
- Make a purchase in your store, after which the order should get recorded by the app, and the affiliate will earn the commission on the order.

Customize the Affiliate Portal

In the Look and Feel > Store Profile section, you can:

- Set the affiliate portal URL.
- Upload the store logo to show on the affiliate portal and emails.
- Set the brand's primary color, which gets used in the buttons and header image.

The screenshot displays the 'Look and Feel > Store Profile' settings page. The left sidebar contains navigation options: Dashboard, Mobile App, Setup, Look and Feel (selected), Commissions, Coupons, Manage, Grow, and Settings. Below the sidebar is a 'Need Help' section with a 'Contact' button and a link to the App Store. The main content area has tabs for 'Store profile', 'Landing page', 'Signup page', 'Affiliate dashboard', and 'Toolbars'. The 'Store profile' tab is active, showing the following settings:

- Affiliate Portal**: URL of affiliate portal is `https://goaffpro.goaffpro.com`. A 'Change' button is available.
- Store Profile**: Details about your store.
 - Store Name**: Input field containing 'Goaffpro'.
 - Store Currency**: Dropdown menu set to 'US Dollar'.
- Store Logo**: Shown on affiliate portal and emails.
 - Store Logo**: 'Browse...' button, 'No file selected.'
 - Logo Height**: Input field set to '100' with a 'px' unit selector.
 - Use logo for favicon
- Brand Font**: This font will override the default font of affiliate portal. Current setting is 'Default'. A 'Change' button is available.
- Brand Primary Color**: This color is used in buttons and header image. A blue color swatch is shown.

In the Look and Feel > Landing Page section: You can customize the look of the landing page of the affiliate portal. Here you can:

- Add a banner to the landing page.
- Edit the text displayed on the landing page.
- Customize the card group and footer section of the portal.

In the Look and Feel > Signup Page section: You can customize the signup page of the affiliate portal. Here, you can:

- Choose the signup page of your choice.
- Enable additional signup fields or create new ones.

Setup the Affiliate Program

Commissions: In the commissions tab you can set up different commissions for your affiliate program. When an affiliate refers an order to the store, they will earn a commission on that order.

The screenshot shows a dashboard with a left sidebar containing navigation options: Dashboard, Mobile App, Setup (selected), Look and Feel, Commissions, Coupons, Manage, Grow, and Settings. The main content area has three tabs: Referral commissions, Royalties commissions, and Commission modifiers. Under 'Commission modifiers', there are three sections: 'Default Commission' (10%), 'Affiliate Commissions', and 'Product Commissions'. The 'Default Commission' section shows '10%' with a 'Change' link. The 'Affiliate Commissions' section has a 'Set commission for an affiliate' link. The 'Product Commissions' section has a 'New Product Commission' link and a table with columns for Product, Affiliate, Commission, and Actions. The table is currently empty, showing 'No Data'.

Default Commission: It allows you to set the commission that applies to all the products and affiliates in your program.

The screenshot shows the 'Default Commission' settings. It includes a title 'Default Commission', a description 'Applies to all products and affiliates', a dropdown menu set to 'Percentage', a text input field containing '10', a percentage symbol, and a 'Save' button.

Product Commission: It lets you set different commissions for different products or affiliates in your program.

The screenshot shows the 'Create Product Commission' form. It has a title 'Create Product Commission' and a 'Bulk Mode' toggle switch. The form includes several fields: 'Product' (dropdown menu with 'Product A' selected), 'Variation (optional)' (dropdown menu), 'Affiliate' (dropdown menu with 'Affiliate Name' selected), and 'Set Commission' (dropdown menu set to 'Percentage', text input '10', and percentage symbol). A 'Save' button is at the bottom.

Coupons: In the coupons tab, you can set up referral coupon codes for your affiliates. GoAffPro supports coupon code tracking, so your affiliates can share their coupons with customers and get attributed with any sale made using their coupon codes.

The screenshot shows the GoAffPro dashboard. On the left is a sidebar menu with options: Dashboard, Mobile App, Setup (selected), Look and Feel, Commissions, Coupons, Manage, Grow, and Settings. Below the menu is a 'Need Help' section with a 'Contact' button and an 'App Store' button. The main content area is titled 'Coupon Based Commissions' and includes a tip: 'Give coupons to affiliates for non referral link based promotions'. Below this is a table with columns: Affiliate, Coupon, Type, and Actions. The table contains one row with 'Affiliate Name', 'AFFILIATE10', 'Referral', and 'Delete'. Below the table are pagination controls showing 'Page 1 of 1' and '10 per page'. To the right of the table is a 'Bulk actions' link. Below the table is the 'Automatic Coupons' section, which is currently disabled (toggle is off). The text reads: 'Give discount codes to your affiliates for sharing with their customers. Their customers can now come to your store without affiliate's link and use the affiliate's coupon code at checkout. The affiliate will receive commission for such sales too.' Below this text are links for 'Coupon style: Affiliate's Name', 'Change Style', and 'Create for existing affiliates'. At the bottom of the section is the 'Automatically apply discount' toggle, which is currently turned on.

Here, you can set up and enable the automatic coupons option. It will generate coupons automatically for affiliates who enroll in your program.

This is a close-up of the 'Automatic Coupons' settings. The title is 'Automatic Coupons'. The text says: 'Give discount codes to your affiliates for sharing with their customers. Their customers can now come to your store without affiliate's link and use the affiliate's coupon code at checkout. The affiliate will receive commission for such sales too.' Below this text are links for 'Coupon style: Affiliate's Name', 'Change Style', and 'Create for existing affiliates'. To the right of the text is a green toggle switch that is turned on. Below the toggle is the text: '10% discount coupon code will be automatically generated for every registered affiliate'. Below this text is a 'Change' link.

You can set up the discount value of the coupons and usage limits like one use per customer, the number of times the discount code gets used in total, etc.

The screenshot shows the 'Setup Automatic Coupons' configuration page. At the top left is a 'Go Back' link. The title is 'Setup Automatic Coupons'. Below the title is a paragraph: 'Automatic coupons are assigned to your affiliates when they sign up. The affiliates can share these coupon codes with their customers. When their customers use these coupon code at checkout, the customer gets the discount and the affiliate gets the commission'. Below this paragraph are two input fields: 'Discount type' with a dropdown menu set to 'Percentage off', and 'Discount Value' with a text input set to '10' and a '%' symbol. Below these fields is the 'Usage Limits' section, which contains three checkboxes: 'Limit to one use per customer', 'Limit number of times this discount can be used in total', and 'Give discount to new customers only'. All three checkboxes are currently unchecked.

Setup your Program Settings

If you want to approve or reject affiliates manually, you can go to Settings > General > Affiliate Registrations section and disable the "Auto approve registrations" option.

Settings

General | Notifications | Payments | Extras | **Premium** | Integrations | Advanced | Reports

Affiliate Registrations

Manage registrations of affiliates

- Allow registrations from affiliate page**
Allow users to register from the public registration page at goaffpro.goaffpro.com/create-account
- Auto approve registrations**
Only approved affiliates get access to the affiliate portal
[Customize Account Pending Message](#)
- Disable dashboard access to pending accounts**

In the Settings > General > Sales section, you can set up options on how commissions get calculated for sales.

- You can enable the "Include discounts" option, so commissions get calculated after deducting the total discount from the order.
- You can enable the "Disable commission for Self Referral" option, which prevents commission to affiliates for self-referral purchases.

Sales

Settings for referred sales/orders

Commission calculation

- Include discounts**
 - Also adjust for automatic store discounts**
Commission will be calculated after deducting total discount from the order. Reduced affiliate commission proportional to the discount percentage (tick = less commission)
 - Exceptions**
- Exclude shipping and taxes**
Commission will be calculated without deducting shipping and taxes from the order. (tick = less commission)
- Exclude VAT**
Remove VAT from the product price before calculating commission. (tick = less commission)

- Disable commission for Self Referral**

If an affiliate buys through their referral link/coupon, they will not be given commission for that sale

A welcome email is sent to affiliates when they register for your program. You can customize the welcome email from the Settings > Notifications > Welcome Email section.

You can include information in the welcome email that you deem valuable for affiliates (when they are getting started).

Welcome Email

Supported Payment Methods

Which payment methods do you support for payouts. Your affiliates will be given the option to enter payment details for the selected options

Worldwide

- PayPal
- Bank Transfer (SWIFT/ACH)
- Cheque
- Debit Card
- Cash
- Payoneer
- Bitcoin

Africa

- M-Pesa

North America

- Venmo
- CashApp
- Google Pay

EEA/EU

- SEPA
- Revolut

India

- PayTM
- UPI

How to Pay Affiliates?

You have two ways to pay your affiliates:

1. You can pay the affiliate outside of our app and then mark the payment as paid back in our app (in the Payouts tab) ([Guide](#))
2. You can pay the affiliate from within the app using PayPal Payouts (after integrating it from Settings > Integrations). It lets you pay affiliates from within our app and allows for bulk as well as quick payments. ([Guide](#))

Checklist

- Installed GoAffPro on your store
- Went through the setup wizard
- Customized your affiliate portal
 - a. Store profile
 - b. Landing page
 - c. Signup page
- Setup default commissions rate of the program
- Setup automatic coupons option for affiliates
- Customized the welcome email sent to affiliates
- Setup the supported payment methods for affiliates

You can checkout our [documentation](#) for more information on setting up the affiliate program and the features offered by our app.
